SEMI FORMAL

On Friday, February 21st, we had our Semi -Formal once again at Mitchell Hall. It was an unforgettable evening filled with dancing, laughter and and lots of silliness! Attendees arrived in their finest attire, and the venue was transformed into an Enchanted Forest (a big thanks to the Perry's for to amazing display). It was a great to see some old and new faces!

There were so many great pictures we had to do two pages!

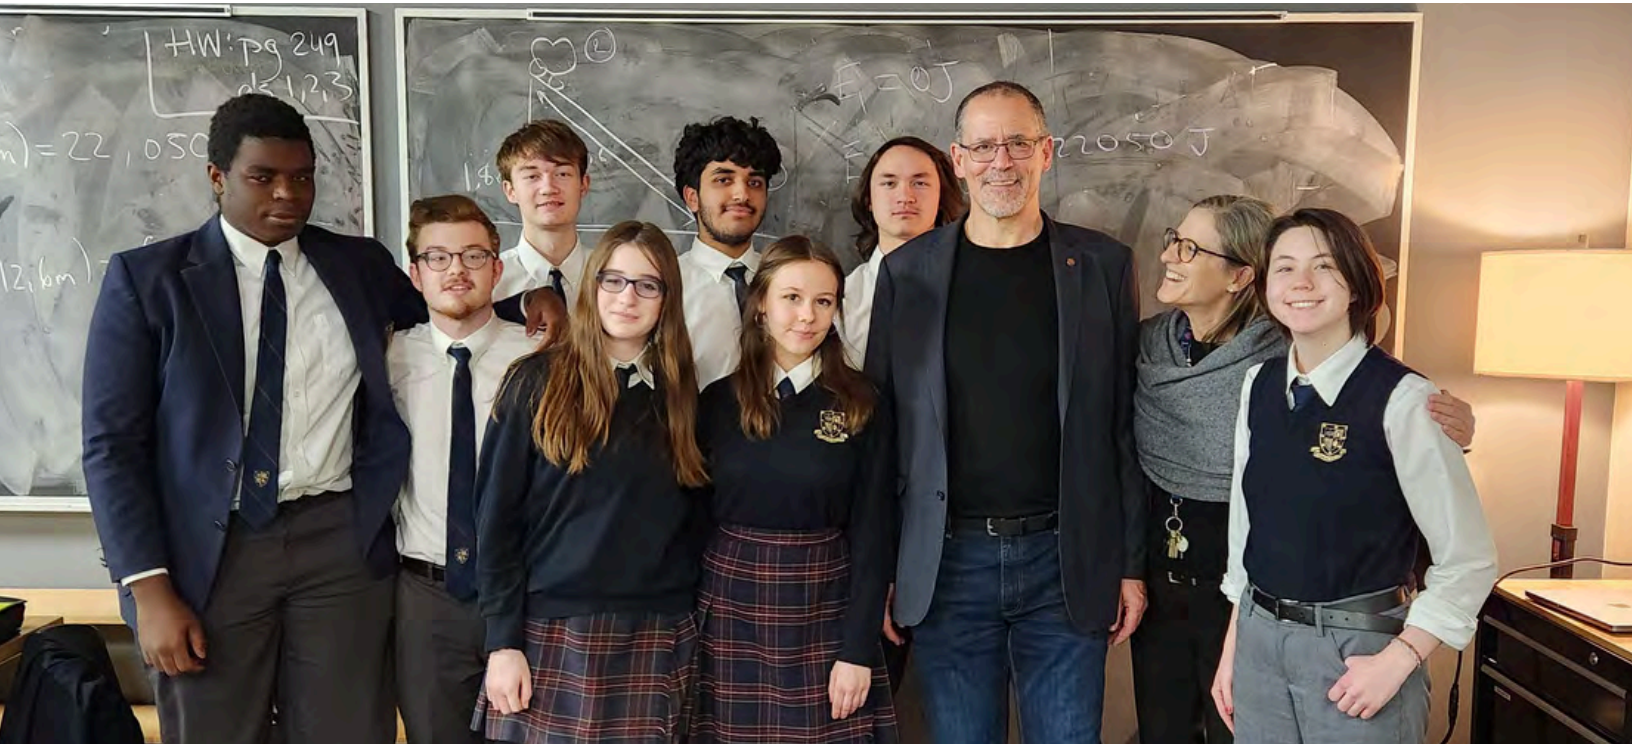

DR. ROBERT LEMIEUX

Dean of Arts and Science at Queen's University

Leahurst College was honored to host Dr. Bob Lemieux Interim Dean of Arts and Science at Queen's University, for an inspiring talk on the critical role of scientific research. Dr. Lemieux, a distinguished scientist, has made significant contributions to the field of liquid crystal materials, focusing on their structure-property relationships to develop advanced applications in fast-switching ferroelectric and electroclinic liquid crystal displays.
