

LEAHURST REVIEW

LEAHURST
COLLEGE

Awards & Graduation Ceremony

Sunday, June 21st 2026 @ 1 PM

GRANDPARENTS' DAY

Grandparents' and Grandfriends' Day is always one of our favourite days at Leahurst College. We love having grandparents and special friends visit our school and spend time with the students. The day is always filled with smiles, laughter, proud moments, and lots of memories made together.

SHOWCASE 2026

This year's Showcase was truly one to remember! Our students amazed us with an incredible range of talent, including talents we did not even know some students had.

From impressive guitar performance to the many beautiful vocal performances throughout the evening, the talent on display was outstanding.

We are so proud of all the students who had the courage to perform and share their gifts with our school community.

SHOWCASE

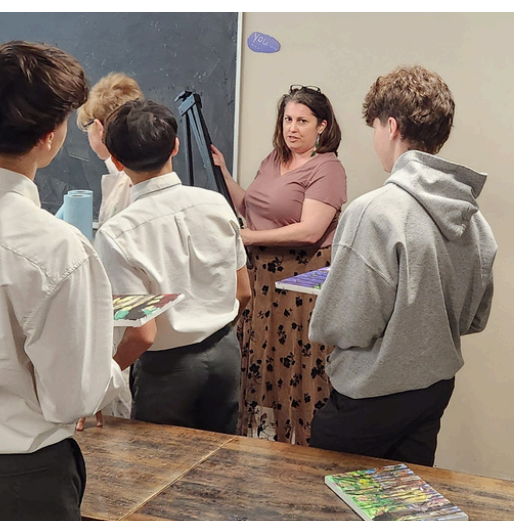

ENRICHMENT DAY

We were so excited to have Michelle Reid back for another **painting experience**.

Our Grade 8 & 9's created some amazing paintings.

Michelle creates more than just paintings; she crafts spaces of peace and connection that transform a room. Noted for her mastery of light and colour, her work ensures that the tranquility of the forest or the vibrancy of a city second is never far away.

ENRICHMENT DAY

Our Grade 10 and 11 students spent the afternoon in the science lab with Ms. Murphy, taking part in a fetal pig **dissection** as part of their Biology studies. This hands-on learning experience gave students the opportunity to explore anatomy and better understand the complex systems of the body in a meaningful and engaging way. Through observation, collaboration, and guided instruction, students were able to connect classroom theory with real-world scientific practice in an engaging way.

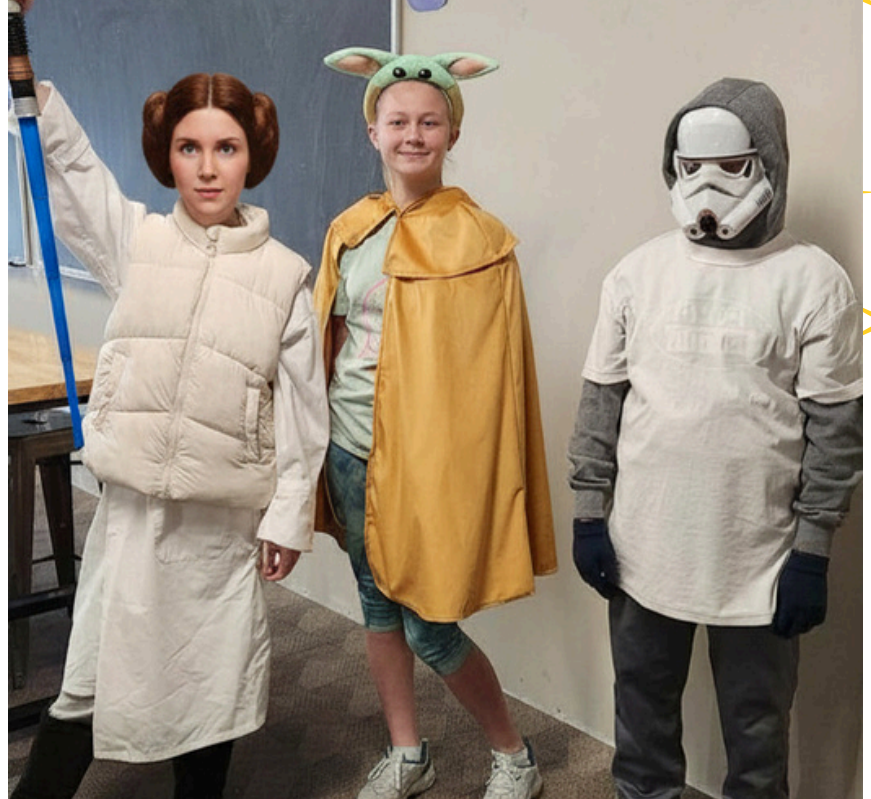

ENRICHMENT DAY

Our Grade 12 students took part in a **Car Maintenance Workshop**, learning valuable life skills such as checking fluids, boosting a car battery, and changing a spare tire. A huge thank you to Ka-Yu for sharing his knowledge, expertise, and hands-on guidance throughout the workshop. Students will use these practical skills for years to come!

MAY THE 4TH BE WITH YOU

May the 4th is always a fun day around the school, and our students never miss a chance to show their love for Star Wars! Students came dressed up and fully embraced the spirit of the day.

As if that wasn't exciting enough, a few weeks later, we also had baby chicks hatching in the science lab! Students loved checking in on them throughout the day and watching them make their big debut into the world.

TRACK & FIELD MEET OTTAWA

STUDENT ACHIEVEMENTS

Fisher R

Fisher attended the **Ivey High School Case Competitions** (IHSCC) in early May in London, Ontario. The IHSCC offers high school students worldwide the opportunity to immerse themselves in the exciting world of business. In these dynamic, one-day events hosted every spring by **Ivey Business School at Western University**, participants tackle real-world business challenges while building essential skills like problem-solving, teamwork, and presentation.

"This was the perfect setting to work on developing skills and trying new things. They met my son where he was at and helped him develop confidence in the water. I was amazed to see what he was willing to try and able to do in such a short period. We will definitely be continuing!"

KINGSTON SteamWorks SUMMER CAMP

For curious and creative minds

Science Technology Engineering Arts Math

Why Join?

Hands-on arts and crafts

Exciting science experiments

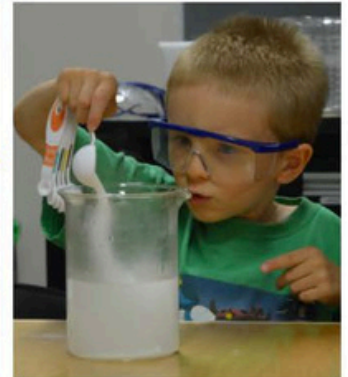

Outdoor games & activities

Friendly, caring counsellors

Our enthusiastic counsellors foster creativity, curiosity and friendships in a safe and inclusive environment.

Location

Woolen Mill. Cataraqi street #109,
Kingston, ON K7K 1Z7
